WORLD'S FINEST CITY DIRECTORY SERVICE

COPYRIGHT 1967 BY ROBERT MORTON BALDWIN

COMPLETE AND PROGRESSIVE

The ABCD type of ConSurvey directory was originated by Robert Morton Baldwin and Heber Page. While many publishers have been content to rest on their laurels, issuing the same type directory used fifty years ago, the Mullin-Kille and Baldwin organizations have led the way to the production of an up-to-date ConSurvey directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type directory service. In the future, as in the past, Mullin-Kille and Baldwin ConSurvey directories will stand for the highest ideals in public service.

ROBERT MORTON BALDWIN

The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory and checked with material supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

FIVE DIVISIONS OF THE BOOK

The principal divisions of the Mullin-Kille Directory contain the following information:

1. THE PREFACE contains historical and civic information with photographs of general interest.

2. THE BUYERS' GUIDE and CLASSIFIED BUSINESS DIRECTORY SECTION contains display information concerning the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and the names of all business firms, professional men and women and non-profit organizations, properly classified, with the names of distributors of national brands of merchandise.

3. THE NUMERICAL TELEPHONE DIRECTORY contains telephone numbers arranged in numerical sequence.

4. THE HOUSEHOLDERS' DIRECTORY AND STREET TELEPHONE GUIDE contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property, and gives the telephone number of each house.

5. THE RESIDENT DIRECTORY AND COSMOPOLITAN TELEPHONE DIRECTORY contains most of the data concerning the individual. The wife's name is given in parentheses, and the number of dependents under 18 is shown as well as the ownership of homes. This is followed by position, place of employment, home address and accessible telephone numbers.

Explanation

All persons over 18 years of age living in the community are listed.

The wife's name is shown in parentheses after the husband's as follows: Smith Robt R (Mary L).

The number of children under eighteen years of age is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

In the resident directory home ownership is designated by Ⓗ as follows: Smith Robt R (Mary L) 3 Ⓗ. Renters are shown by the omission of the Ⓗ.

In the householder's directory ownership is shown by the same designation as follows: 210 Main Smith R R Ⓗ.

In the case of a natural widow this fact is shown with the name of the deceased husband in parentheses, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robt R (Mary L) clk Hub Clo Co.

The residence of each person is shown by "h" denoting householder or head of a family and by "r" denoting other persons in the home. Only one person in each home is listed with an "h". Therefore, a circular mailed to each householder marked "h" will reach every home in the city.

Married women engaged in some responsible occupation are listed individually in addition to their regular listing with the husband as follows: Smith Mary L (Mrs Robt R) bkpr Hub Clo Co r 210 Main.

The words street and avenue are understood.

Persons living outside the city limits and receiving their mail in the country are marked RD.

Telephone numbers are designated in the resident directory at the end of the line with the designation 🔔 as follows: Smith Robt R (Mary L) 3 Ⓗ clk Hub Clo Co h 210 Main 🔔498.

In the householders' directory the telephone number of each house is given at the end of the line as follows: 210 Main Smith R R Ⓗ—🔔498. In this division of the book each street is listed alphabetically and each house on the street is listed according to number. All street intersections are shown at the proper places with the names of the cross street. In case there is no telephone shown the nearest telephone on the street may be found.

In the numerical telephone directory the telephone numbers are listed in numerical order.

In the business directory and buyers' guide the various business and professional firms are arranged according to their line of business and merchandise sold. Nationally advertised brands are designated with a ★. For example under the heading automobiles will be found the following classification: ★FORD—Jones Mtr Co 100 Elm. The buyers' guide carries the printed message of the city's leading business and professional firms.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher. It shows the exact population of the city and environs at the present time.

Numerical Telephone Directory

1967

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The Publishers are very careful in using these numbers but do not assume any responsibility in case of error. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the reguler telephone directory issued by the local telephone company in order to verify the information contained herein.
